

HVAC&R JAPAN 2026

Exhibition General Information

Registration Start

Monday, June 2, 2025

* Please register online from the official website.(https://www.jraia.or.jp/hvacr/top_en).
Registration forms will also be available for download from the official website starting Monday, June 2 .

Registration Deadline

Friday, August 29, 2025

*However, registration will be closed as soon as the booths are fully booked.

Booth Specifications

- One standard booth space is 3 m (width) x 3 m (depth) x 2.7 m (height).
- When there is an adjacent booth, the organizer will install a wall between the booths.
- In this case, the booth size will be 2.97 m (width) x 2.97 m (depth).
- When there is no adjacent booth, only the booth space will be provided.

Booth Image

Exhibition fee includes:

- Single booth space
- Wall between the booths
(When there is an adjacent booth)
- Complimentary programs
 - Invitations and poster set
 - Publication of exhibitor information in the official website
 - Publication of exhibitor information in news releases

Exhibition fee does not include:

Costs related to delivery and removal of materials, decorations for the booth, tables, chairs, company name display, lighting, power source, etc.

Exhibition Fee ※1

One booth	3m × 3m
Members ※2	330,000 yen (tax included)
Non-members	396,000 yen (tax included)

※1 The Secretariat provides a booth package with basic materials and decorations necessary for exhibition. For details, please contact the Secretariat (Approximately 70,000 yen per booth is planned).

※2 Members refer to regular members, special members, or associate members of The Japan Refrigeration and Air Conditioning Industry Association (JRAIA), the organizer of the exhibition.

Notes for Registration Including Method of Determining Booth Locations

Booth locations will be determined by the organizer in consideration of various factors such as the number of booths registered by respective exhibitors, past participation results of the exhibition, exhibition content and other factors. The organizer may rearrange the booths even after announcement of the booth locations for the realization of a more effective exhibition. In this case, the exhibitors may not claim compensation from the organizer for the change of booth locations or expenses incurred by the exhibitors caused by the change.

Schedule

2025 Tuesday, March 11,	Event presentation
Monday, June 2	Registration start
Friday, August 29	Exhibitor registration deadline
October (TBD)	Exhibitor information session (announcement of floor plan)
Late December	Deadline for various submission documents
2026 Saturday, January 24 to Monday, January 26	Booth setup (three days)
Tuesday, January 27 to Friday, January 30	HVAC & R JAPAN 2026 (four days)
Friday, January 30	Immediate dismantling of booths following the end of the exhibition

Find the future with HVAC&R

HVAC & R JAPAN

HVAC&R Japan is a well-established exhibition popularly known as HVAC&R with over a half a century of history since 1956 when its predecessor exhibition, the Japan Refrigerating Machine Exhibition, was held for the first time. In Japan, this is the only exhibition that focuses on the heating, ventilation, air-conditioning and ventilation equipment industry. Continuously featuring “Find the future with HVAC&R” as the main theme, this major trade show and exhibition showcases products, systems, and technologies, etc., which will be solutions for global environmental issues.

Greeting

Katsuyuki Sawai
Chairman of Japan Refrigeration and Air Conditioning Industry Association

Organized by the Japan Refrigeration and Air Conditioning Industry Association, HVAC&R JAPAN 2026 (THE 44TH HEATING, VENTILATING, AIR-CONDITIONING AND REFRIGERATING EXPO) will be held at Tokyo Big Sight for four days, from Tuesday, January 27 to Friday 30, 2026. Cutting-edge technologies and systems as well as the latest products and services will be exhibited, with the main theme being “Find the future with HVAC&R.” Initiatives to achieve carbon neutrality in 2050 continue to be major issues for the refrigeration and air conditioning industry. Various technological innovations that contribute to the creation of a sustainable society, including carbon neutrality, are advancing, attracting more attention and increasing expectations. In 2024, the exhibition had many visitors both from Japan and abroad, and the number of visitors reached a record high. This exhibition will showcase expanded fields of application for world-class energy-saving technologies and heat pump technologies to meet such expectations and new refrigerants. In addition, it showcases cutting-edge equipment, systems, and services, that contribute to solving a variety of issues, including countermeasures for refrigerant leakage, the utilization of recycled refrigerants, and other cutting-edge technologies related to refrigerants. It will also create opportunities for business matching between exhibiting companies/organizations and visitors. As the perfect place for business exchanges every two years, the exhibition has been held in two halls until now. This year, the exhibition will be expanded to three halls for the first time, and we are looking forward to your active participation and use of it. We appreciate the support and cooperation of all the parties involved including sponsoring organizations and academic societies and the press.

Event Overview

Exhibition Title	HVAC&R JAPAN 2026 THE 44TH HEATING, VENTILATING, AIR-CONDITIONING AND REFRIGERATING EXPO
Period	From Tuesday, January 27 to Friday, 30, 2026 10:00 – 17:00 (until 16:00 on the last day)
Venue	Tokyo Big Sight, East Exhibition Halls 4, 5 and 6
Organizer	The Japan Refrigeration and Air Conditioning Industry Association
Supported by	Ministry of Economy, Trade and Industry (TBD)
Exhibition scale*	2024 records Number of exhibitors: 149 companies Number of booths: 766 booths
Concurrent events	Special lectures, keynote lectures, planning seminars, etc.

Sponsors (TBD)

Japan Urethane Foam Association
Institute for Built Environment and Carbon Neutral for SDGs
The High Pressure Gas Safety Institute of Japan
The Energy Conservation Center, Japan
New Energy Foundation
The Japan Gas Association
Japan Industrial Association of Gas and Kerosene Appliances
Japan Machinery Federation
Japan Chain Stores Association
Japan Cooling Tower Institute
Association for Electric Home Appliances
The Society of Heating, Air Conditioning and Sanitary Engineers of Japan
Japanese Association of Building Mechanical and Electrical Engineers
New Energy and Industrial Technology Development Organization
National Supermarket Association of Japan
National General Contractors Association of Japan

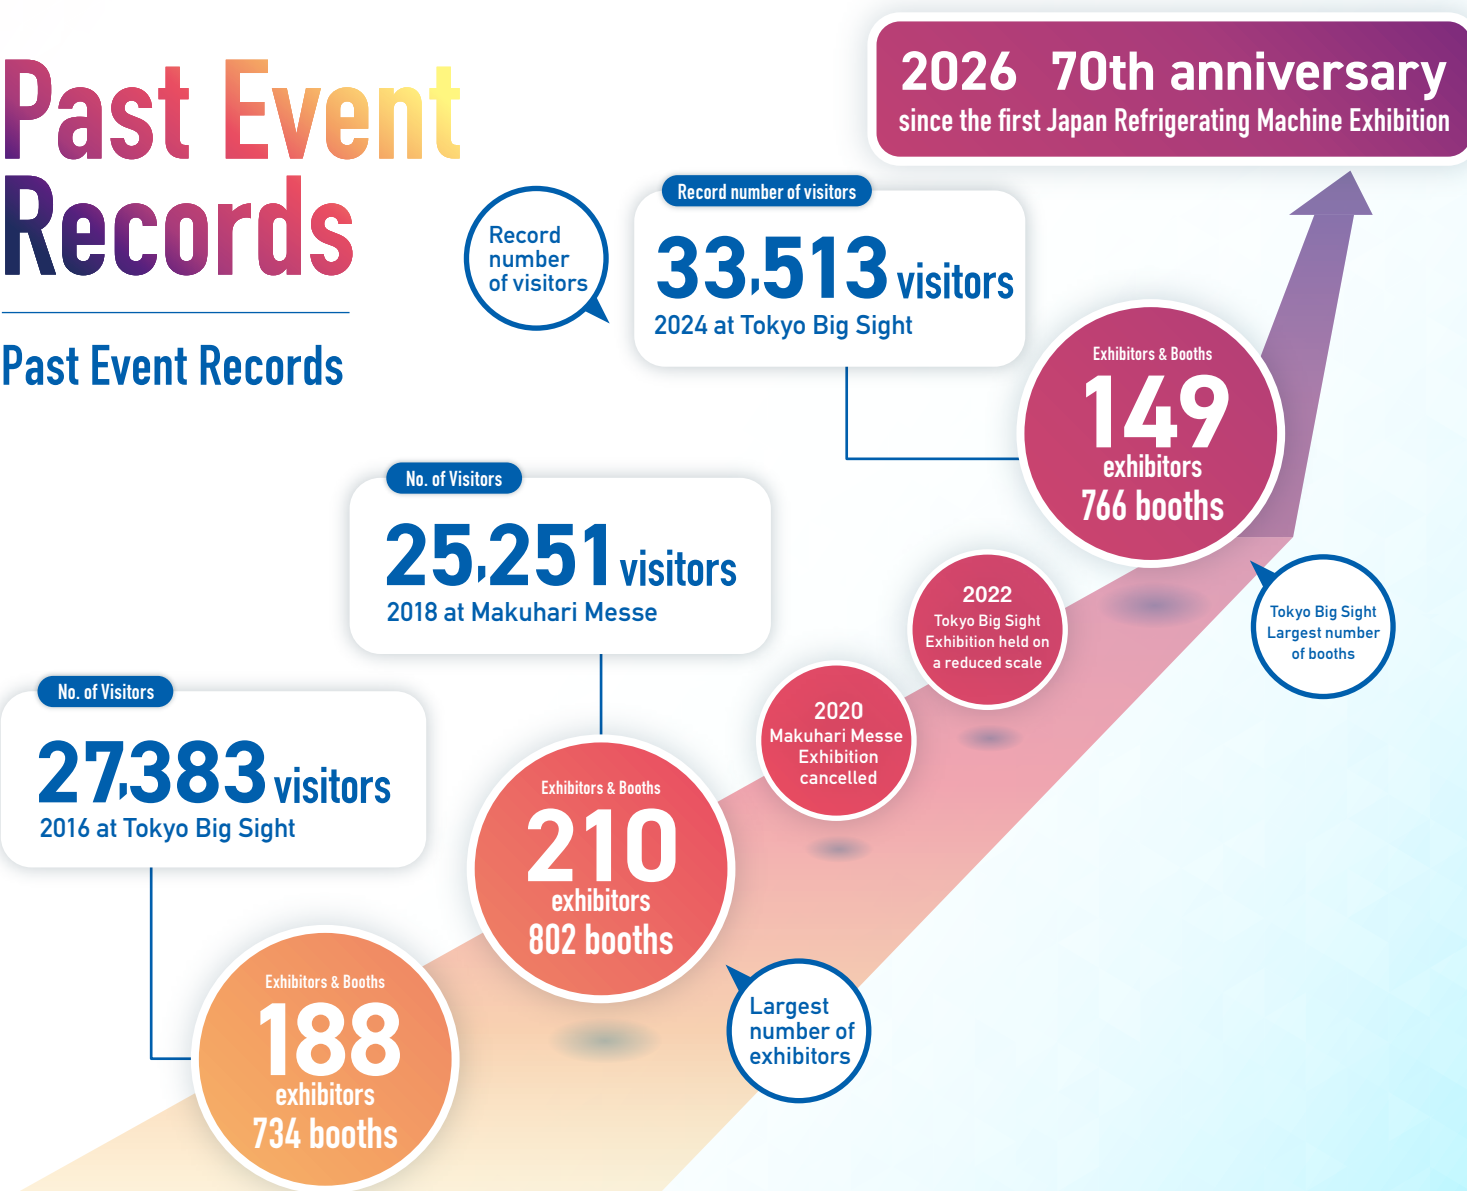

Electrical Products Association of Japan
Japan Solar Heat Association
Federation of Electric Power Companies of Japan
The Institute of Electrical Installation Engineers of Japan
Japan Electronics and Information Technology Industries Association
Japan Electro-Heat Center
Japan Air Cleaning Association
Air-conditioning & Plumbing Contractors Association of Japan
Japan Air Conditioning And Refrigeration Testing Laboratory
Japan Federation of Construction Contractors
The Japan Society of Industrial Machinery Manufacturers
The Japan Food Machinery Manufacturers' Association
Japan Auto-Body Industries Association Inc.
Japan Vending System Manufacturers Association
Japan Federation of Mechanical & Electrical Consulting Firms Association
Japan Solar Energy Society
Japan Heating Industrial Associationa

Japan Electric Measuring Instruments Manufacturers' Association
The Japan Electrical Manufacturers' Association
Japan Heat Supply Business Association
Japan Valve Manufacturers' Association
Japan Foam Styrene Industry Association
Japan Fluorocarbon Manufacturers Association
Japan Thermal Insulation Association
Japan Boiler Association
Japan Floor Heating Association of Hot-water System
Japan Society of Refrigerating and Air Conditioning Engineers
Japan Association of Refrigeration and Air-Conditioning Contractors
Japan Frozen Food Association
Japan Refrigerants and Environment Conservation Organization
Japan Expanded Polystyrene Association
Heat Pump & Thermal Storage Technology Center of Japan
Japan Prefabricated Construction Suppliers and Manufacturers Association

(In Japanese alphabetical order)

Past Event Records

Past Event Records

Expansion of Exhibition Target Fields

Expansion of exhibition fields: We welcome participation as exhibitors by all stakeholders working on architecture and whole-life decarbonization

Regular Exhibition Fields		
Refrigeration and air conditioning equipment	Commercial-use cooling and heating equipment	Air to water heat pump (ATW)
Co-generation system	Gas air conditioning system	District cooling and heating system
Related materials and components	Renewable energy use	Energy management system
New Exhibition Fields		
Real estate and developers	General and sub-contractors	Digital Transformation (DX) and Green Transformation (GX) solutions
Sustainable architecture	Energy efficient air conditioning and equipment design	Air conditioning and sanitation system

HVAC&R will create new value through cross-industry cooperation and encounters

Details such as support programs and enhanced side events and conferences will be published on the website
